

UPHAAR – Uttar Pradesh Homeguards Automation & Rotation System
(<http://uphaar.up.nic.in>)

UPHAAR is a unique e-governance model in Uttar Pradesh, developed to assign duties through Internet to thousands of home guards on monthly basis, who provide vital back up to the state police in U.P. in maintenance of law and order and internal security, help the community in any kind of emergency such as an air-raid, fire, cyclone, earthquake, epidemic.

Uttar Pradesh is the first and only state in the country to have actually created such a huge database of more than 1Lakhs Homeguards and provides fair deployment of homeguards and automated the complete workflow and internal processes with minimum manual intervention. Computerization of Homeguard Deptt. in UP is an ICT based gigantic task to streamline the workflow of Department in most populous state of country.

Salient Features:

1. UPHAAR provides fair chances of posting to each and every homeguards to the possible nearest duty place.
2. SMS (bilingual) Alerts to inform each and every homeguards about duty place and duty duration well in advance on his/her mobile phone.
3. UPHAAR comes very handy in deployment of Homeguards in U.P Gram Panchayat Election 2015 and recently held U.P. Election 2017.
4. This e-Governance initiative enhanced productivity and efficiency of the Homeguard Department and technology inclusion helped in reducing digital divide.
5. So far 34,45,628 homeguards are deployed across 75 districts of U.P.

UPHAAR received SKOTCH ,order of merit' and SKOTCH 'SMART Technology' in 2014-15
